Florence, South Carolina 29501-0551
Telephone: (843) 777-2497
e-mail: vanderson@mcleodhealth.org
Web site: <http://www.peedeeahc.org>

Deadline for applications is January 15th

Admission Requirements

A. MRMC Requirements for all students

Overall GPA 2.5 or higher
Science GPA 2.6 or higher
Three personal recommendations
Personal interview at MRMC
Fulfillment of Preclinical curriculum
The GPA is based on ABCDF where 4.0 is an A. All math, science, and computer courses used to calculate science GPA. All courses attempted used to calculate overall GPA.

B. Students with Baccalaureate Degree (4+1)

Biology-Minimum 16 semester hours
Required: Microbiology & Immunology

Chemistry-Minimum 16 semester hours
Required: 8 hours from Organic/
Quantitative Analysis or Biochemistry.

Biology and Chemistry courses must have been completed no longer than seven years ago. Survey courses will not satisfy requirements.

Math-Minimum of 6 semester hours
Statistics is required. Remedial math will not satisfy this requirement.

Computer Science-3 semester hours

C. Students working toward a degree (3+1)

(1) Completion of courses listed above with a "C" or better.

(2) Completion of curriculum as outlined in current catalog from affiliated academic institutions.

(3) Letter from registrar's office stating that applicant has completed all requirements for graduation except the clinical program.

****All information subject to change.****

Course Descriptions

The fifty-one week program integrates classroom lectures and practical experience. Students receive practical experience in each department of the clinical laboratory. The laboratory experience includes principles of instrumentation, quality assurance, problem solving, correlation of diagnosis with clinical findings and computer application for handling patient data.

Courses include:

Clinical Hematology MT 405 - 4 semester hours
Study of blood cell formation, function and disorders.

Clinical Microbiology MT 425 - 4 semester hours
Study of the bacterial agents of human infections.

Immunohematology MT 450 - 4 semester hours
Study of blood banking principles & practice.

Clinical Immunology MT 455 - 3 semester hours
Study of human immune system and deficiencies.

Hemostasis MT 410 - 2 semester hours
Study of hemostasis and disorders.

Instrumentation and Methods MT 415 - 2 semester hours. Study of methodologies and principals of instrumentation used in clinical laboratory.

Clinical Chemistry MT 420 - 4 semester hours
Study of chemical analytes assayed in medical setting and related disease states.

Parasitology, Mycology, & Virology MT 430 - 3 semester hours. Study of clinically significant parasites, viruses, and fungi.

Clinical Microscopy MT 440 - 2 semester hours
Study of urine/body fluids and disorders.

Medical Laboratory Systems MT 460 - 2 semester hours. Topics in management, education and phlebotomy.

Overview of Program

The School of Medical Technology is located on the McLeod Regional Medical Center campus in Florence, SC. The hospital-based program was established in 1977 to help provide the Pee Dee with qualified medical technologists. The Program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS).

The twelve month program begins in August. Class size is limited with an average of six students per year. The faculty is composed of pathologists and medical technologists. Students rotate through Hematology, Immunochemistry, Microbiology and Blood Bank for eight to eleven weeks per section. Students may be paired with another student during their clinical experience. There is a three week rotation through Urinalysis/Coagulation and also a shorter phlebotomy rotation.

Lectures are scheduled on Wednesday in the student classroom. Four courses are taught first semester and five courses are taught second semester. One course begins in orientation and is completed during the second semester. Students are graded in affective, didactic, and psychomotor achievement for each course. Students must pass each area of each course to complete the Program. Upon completion of the Program, a student should have entry-level competencies of a medical technologist and will be eligible to sit for national certification exams. Graduation is not contingent on passing any national certification board/exam.

The students will be given the principles of basic management and education methodologies. They will be trained to develop and use skills of critical thinking, problem solving, and analyzing situations that arise in the clinical laboratory. Students are awarded certificates upon completion of the Program. Students must meet essential functions of the medical technology program. A description of the essential functions is available upon request from the program.

Students completing courses more than seven years ago must contact program regarding update of course work. Students holding foreign degrees or for whom English is a second language must contact the program regarding require documentation.

Students recruitment, admission, and progression through the program shall be nondiscriminatory in accordance with local, state and federal regulations. Preference is given to students from the Pee Dee area of South Carolina in accordance with the School's mission.
